Protection
Guaranteed !

About us

KANODIA NETS is a leading supplier of high-quality Fiber Mesh, SS Wire Mesh, Plaster Mesh, Mosquito Mesh and etc.. With a commitment to innovation and durability, we provide top-grade mesh solutions designed for construction, industrial, and residential applications.

Our fiber and plaster mesh enhance strength in plastering and waterproofing applications, ensuring crack resistance and durability. Wire mesh is manufactured with precision for reinforcement, fencing, and industrial uses, while our mosquito mesh offers effective protection against insects without compromising ventilation.

Backed by state-of-the-art manufacturing technology, stringent quality control, and a skilled workforce, we deliver products that meet international standards. Our customer-centric approach, competitive pricing, and timely delivery make us a trusted name in the industry.

At KANODIA NETS, we strive for excellence, reliability, and sustainability, ensuring superior solutions for our clients.

Mission :

To provide high-quality, durable, and innovative mesh solutions with a focus on excellence, sustainability, and customer satisfaction.

Vision :

To be a global leader in mesh manufacturing, delivering superior quality, innovation, and eco-friendly solutions for a stronger, safer world.

PLASTER MESH

White Colour

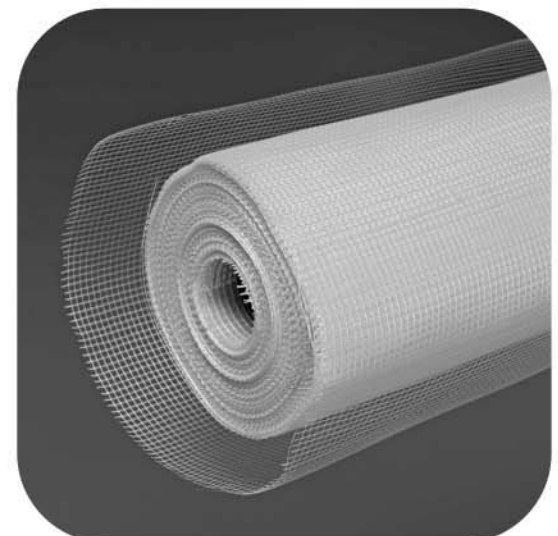

Our Plaster Mesh enhances strength, crack resistance, and durability in construction. Ideal for reinforcement in plastering and stucco applications, ensuring a smooth, long-lasting finish.

TECHNICAL PARAMETER

- Material: Fiber Glass
- Roll size (in Inches) : 4 / 6 / 8 / 12 / 1 mtr.
- Weight (in gsm) : 45 / 50 / 80 / 110 / 145

APPLICATION

- Construction wall insulation.
- Plastering work.
- Waterproofing.

PVC WELD MESH

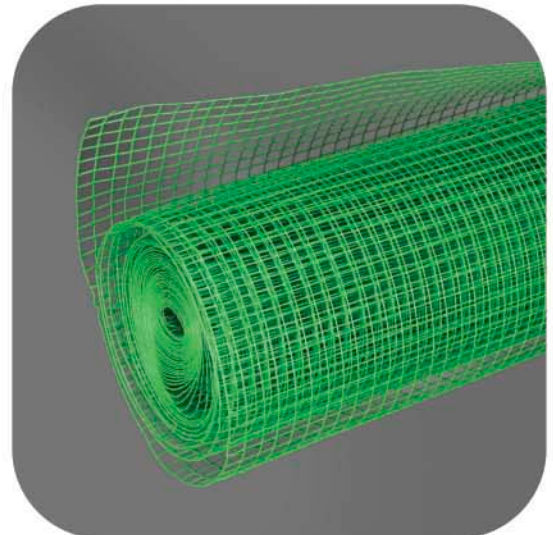

Our PVC Weld Mesh in green color offers corrosion resistance, durability, and aesthetic appeal, making it ideal for fencing, gardening, and security applications.

TECHNICAL PARAMETER

- Material: PVC (Green Colour)
- Size: 12mm, 15mm, 6mm
- Length : 10 Mtr., 15 Mtr.

APPLICATION

- Sunshade screen.
- Construction.
- Fencing.

COLOUR COATED MESH

Our Color-Coated Mesh offers durability, corrosion resistance, and aesthetic appeal, making it ideal for fencing, safety barriers, and decorative applications in residential and industrial settings.

TECHNICAL PARAMETER

- Colour : Green and Blue
- Mesh Size : 12 x 10
- Width : 3ft, 4ft, 5ft
- Length : 15 Mtr.

APPLICATION

- Insect screen.
- Sunshade screen.
- Construction

SS 304 WIRE MESH

Epoxy Coated

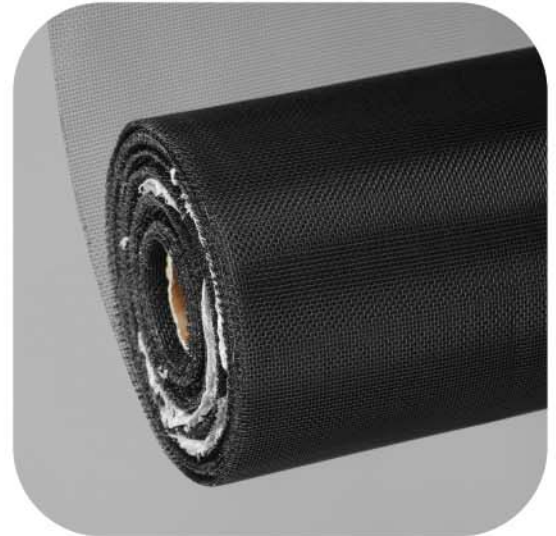

Our SS 304 Wire Mesh with epoxy coating offers enhanced durability, corrosion resistance, and strength, making it ideal for uPVC Windows, enclosures, and industrial applications.

TECHNICAL PARAMETER

- Material : SS 304 Grade
- Coated : Black Epoxy Coated
- Mesh size: 18 x 16 & 18 x 18
- Wire Diameter : 0.19mm to 0.25mm
- Width : 3ft, 4ft, 5ft

APPLICATION

- uPVC windows.
- Insect screen.
- Construction.

SS 304 WIRE MESH

Our SS 304 Wire Mesh in steel finish offers excellent strength, corrosion resistance, and durability, making it ideal for uPVC windows & Insect Screen.

TECHNICAL PARAMETER

- Material : SS 304 Grade
- Mesh size: 18 x 16 & 18 x 18
- Wire Diameter : 0.19mm to 0.25mm
- Width : 3ft, 4ft, 5ft

APPLICATION

- uPVC windows.
- Insect screen.
- Construction.

SS FINE MESH

304 Grade & 201 Grade

Our SS Fine Mesh (304 Grade) offers high durability, corrosion resistance, and precision, making it ideal for filtration, sieving, and protective screening in various applications.

TECHNICAL PARAMETER

- Material: Stainless Steel 304 Grade
- Mesh size: 20 Mesh to 200 Mesh
- Wire Diameter : 0.06mm to 0.50mm

APPLICATION

- Filtration
- Strainers.

ALUMINIUM WIRE MESH

Our Aluminum Wire Mesh offers lightweight strength, corrosion resistance, and durability, making it ideal for filtration, screening, and protective enclosures in industrial and residential applications.

TECHNICAL PARAMETER

- Mesh size: 14 x 14 & 18 x 16
- Wire Diameter : 0.27mm to 0.35mm
- Width : 3ft, 4ft, 5ft
- Length : 30mtr

APPLICATION

- Insect screen.
- Sunshade screen.

FIBER MOSQUITO MESH

Our Fiber Mosquito Mesh provides effective insect protection, excellent ventilation, and durability, making it ideal for windows, doors, and outdoor enclosures in homes and commercial spaces.

TECHNICAL PARAMETER

- Colour : Grey, Black and Ivory
- Mesh size : 18 x 18
- Width : 3ft, 4ft, 5ft
- Length : 30mtr

APPLICATION

- Insect screen.
- Sunshade screen.

GI WIRE MESH

Our GI Wire Mesh in galvanized and MS material offers high strength, corrosion resistance, and durability, making it ideal for fencing, screening, and reinforcement applications.

TECHNICAL PARAMETER

- Material: Galvanized and MS
- Mesh size: 4 Mesh to 40 Mesh
- Wire Diameter : 0.10mm to 1.00mm
- Square Weaving

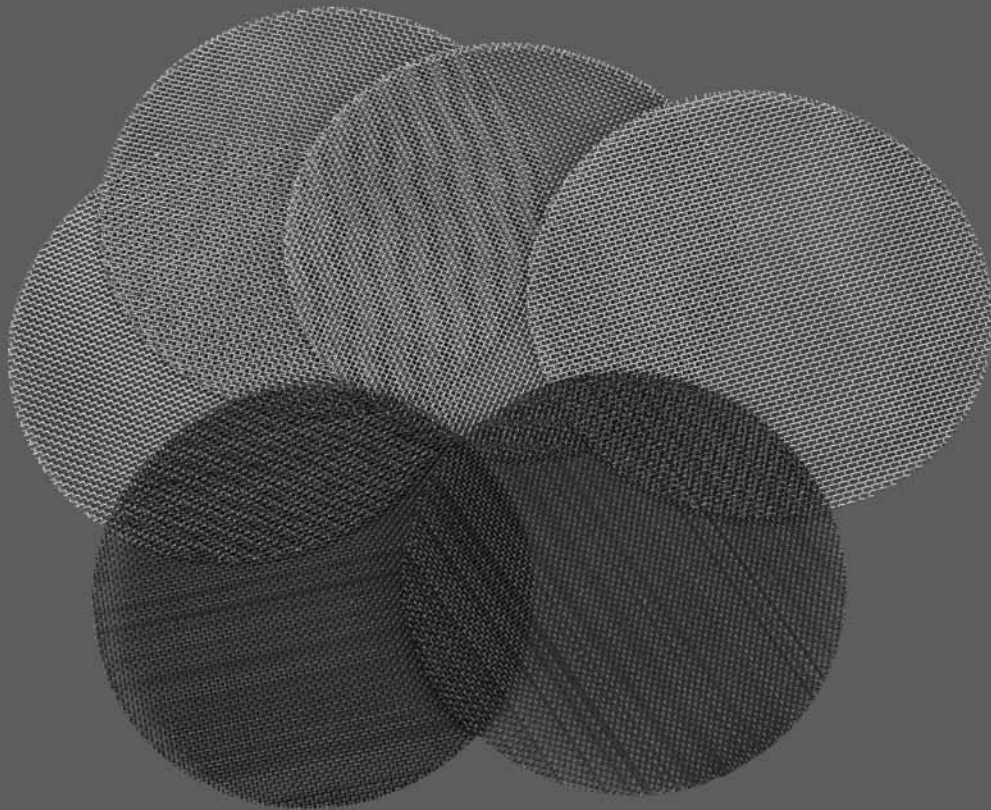

APPLICATION

- Insect screen.
- Sunshade screen.
- uPVC windows.
